

Our Medical Billing services include the entire spectrum of Accounts Receivable: Electronic Claims Submission, Reimbursement Accounting, Denials Management, Patient Invoicing, Collections, Detailed Billing Reports, and Physician Contracting and Credentialing. We also provide clearinghouse setup services, including Electronic Remittance Advice (ERA) and Electronic Funds Transfer (EFT) from Insurance payers. Therefore, reducing storage and filing issues from paper EOBs and speeding up insurance payments by having reimbursements deposited directly into your bank account.

Azalea Health Innovations manages the billing services for all specialties and Rural Health Clinics. Our Professional Billing Services will help reduce the stress incurred from having to deal with the non-medical, business aspects of your practice. Azalea Health Innovations' knowledgeable medical billing professionals will allow you to focus on what you do best, providing the the best in care to your patients.
